

UNITED NATIONS MOBILIZES KATANGA INVASION

By Austin Mosher

During the past year many Americans have been horrified by reports of atrocities committed against the Christian Anti-Communist people of Katanga Province in the African Congo.

Hundreds of unarmed men, women, children, priests, nuns and missionaries have been **brutally raped, tortured and murdered** by troops of the United Nations Command, for no other reason than that they refuse to surrender their sovereignty to the Congo Central Government which is Communist dominated.

The United Nations Charter states that that organization shall not interfere in the internal affairs of any nation. What, then, are U. N. troops doing in the Congo? Until recently no one seemed to be quite sure of the answer to that question. But now documents have come to light which put the whole sordid story in proper perspective. It is one of the most infamous plots in history. When the truth gets out to the people it will shock them and, we hope, will cause an uproar of indignation.

Secret Memorandum Report written on October 1, 1962 by the United Nations Secretariat, outlines in detail a plan for carrying on an invasion of Katanga within the next two weeks, which the authors of the Report hope will crush all opposition. According to the Report there are at this moment **15,000 U. N. troops mobilized on the borders of Katanga, ready to move in.** Of these, **4,000 are Indian Gurkhas** who are known to be savage fighters. The Report leaves no doubt in the mind of the reader that this **unholy warfare** against Katanga will result in the ruthless killing of more innocent people.

To Americans the really shocking part of this thing is that **President Kennedy has been apprised of the plan and has given his approval**, and a promise that United States transport aircraft and helicopters will be furnished for use in carrying out the operation.

But, the Report says, Mr. Kennedy has requested that the plan be held up in abeyance until after November 6, because he is afraid that public opinion in the United States will have an adverse effect on the outcome of the election if the invasion is carried out before then. The U. N. troops, therefore, have been ordered to be prepared for action as of November 12.

Congressman Donald Bruce, (R. Ind.) addressed the House on September 12, 1962 and produced irrefutable evidence to support his allegations that powerful American and foreign financiers were virtually using United Nations troops as mercenaries to carry out a conspiracy to capture the rich natural resources of the Congo, most of which are in Katanga Province. Mr. Bruce named dozens of industrialists, bankers and financiers in various parts of the world who are parties to this conspiracy. He also named high ranking officials in our own State Department.

Premier Moise Tshombe of Katanga stated publicly several weeks ago that the real issue in the Congo was the great wealth which greedy men wanted to control for their own gain, by whatever methods this could be accomplished, even if it meant shedding the blood of innocent people. This bears out what Mr. Bruce disclosed in his speech in Congress, which, for obvious reasons, never got into the newspapers.

It is inconceivable that the President of this God-fearing nation would support such a conspiracy against a peaceful anti-Communist people, and that he would give millions of dollars of American taxpayers' money to defray the expense of carrying out the conspiracy. His self-confessed fear

of public opinion is an admission on his part that there is something **highly immoral about the whole thing**. Surely every self-respecting citizen will agree that the President does not speak for the people in this matter.

How can anyone with humane instincts stand idly by while this plot is carried out, without remonstrating? Instead of supporting this unwarranted aggression against the people of Katanga, the President, and our representative in the United Nations should rise up and condemn the conspirators, and demand that the plan be abandoned. Better still, the President should make it clear that he will use the Armed Forces of the United States, if necessary, to protect the people of that unhappy country.

A very wise man once said that there would be no justice in the world until those who are not injured become as indignant as those who are. Katanga is several thousand miles away, and we may shrug our shoulders and say that what goes on there is none of our concern. **But the President has made it our concern by committing our government to support something which we as individuals would never condone.**

The black people of Katanga are human beings, fighting for their lives. They love their homeland and their children as much as we do ours. They bleed when they are wounded and they suffer the agonies of death like anyone else. How can we live with our conscience if we do not become indignant and demand that righteousness shall prevail?

Note Editor:

The documentation may be had from the following sources:

The U. N. Secret Report from American Committee for Aid to Katanga Freedom Fighters, 79 Madison Ave., Suite 909, New York 16, N. Y.

The speech of Rep. Donald Bruce was printed in the **Congressional Record** on Sept. 12, 1962, pages 18138 to 18151. Printed copies may be had by sending \$1.00 to **Liberty Lobby**, 918 Capital St., Washington 2, D. C. Public libraries in many cities receive copies of the **Congressional Record** by mail and keep them on file for public reference.

The group mentioned above, which organized to grab the mineral wealth of Katanga, deposited **100 million dollars in a Swiss bank**. A few of this group are: **Bo Gustav Hammarskjold**, president of the group and brother of **Dag Hammarskjold**, who was then Secretary-General of the United Nations; **Sture Linner**, who was chief of civil operations for the United Nations in the Congo was one of the important members; he controlled U.N. policy concerning Katanga. Also in this syndicate was United States Foreign Aid Chief, **Fowler Hamilton**. Hamilton arranged for foreign aid money to be turned over to the U.N. for its war on Katanga. Under Secretary of State, **George Ball**, was also involved in this maneuver.

HOW WE GOT THIS WAY

—Continued from page 1—

chev asked that all Polish leaders meet with him and his staff to form a peaceful arrangement. When they were all assembled, the communist soldiers surrounded the building and the Polish leaders were shot, and there was peace.

Later the communists used a similar ruse to assemble 14,000 Polish officers and priests burying them in four mass graves, then

planting trees over them. When the German army came in and learned of this massacre in the Katyn Forest and dug up the graves, with captured American colonels as witnesses, who reported it to our Defense Department, but our government kept quiet for four years and let the communists blame the Germans. Poor Poland was invaded by Germany and the Soviet Union. F.D.R. condemned Germany, but gave his consent for his pal, Stalin, to take Poland. F.D.R. urged Poland to defy Germany and authorized Ambassador Bullitt to promise Poland 100 planes within 7 days, but let them be slaughtered and gave them not even one rifle.

As the bloody communists gained strength and arrogance, nursed on our taxpayers' money, the local friends of the Soviet Union, liberals and State Department blocked every move for our self protection.

The bombs which have us in fear, from which we are spending billions to defend ourselves, are from the secrets the communists stole in Washington. Now we give respect and hearing to Khrushchev just as if he were civilized. Kennedy and the State Department have had hundreds of talks with these apes and we gained nothing. We beg for agreements with the devil's agents. If we are to have the respect of the world we should refuse to meet with them on Berlin, Cuba, Laos and Korea. We should shout "NO" at every proposal and run their standing in the world down to nothing.

A mad dog would be shot down in the street, but this lying, Bolshevik butcher was allowed to speak over our entire TV system to weaken our peoples will to resist.

The political saps running our government for years are so interested in the welfare of ungrateful, greedy and pro-communist countries, they give them billions of our taxpayers' money. We get insulted or learn we helped communism in almost every case. But they are careful not to say a word of encouragement to the millions of people in Hungary, Poland, for fear we will offend the bloody butcher, Khrushchev. It is time, if we are to continue to exist, that we curse the Bolsheviks, throw the rule book away and smuggle guerrillas, first into Hungary. Millions in the Soviet Union, as well as the satellite countries, will revolt. Give Chiang Kai-shek the green light and soon communism in the world will be dead. In the United States put every communist in an armed camp, clean out the State Department and fire 82 Jews in top positions surrounding Kennedy.

It is well to remember during this time we have been brought to our knees that since 1912 **Bernard Baruch** has been chief consultant to our Presidents.

This has been cut short due to lack of space, but you have the highlights which brought us to this situation which will bankrupt or enslave us.

Some timid souls will think this is a little rough; would they prefer we spend the rest of our lives waiting for communism to make the moves while they take the world a slice at a time?

REMEMBER THIS WHEN YOU DO YOUR CHRISTMAS SHOPPING

Rabbi Wise in the Jewish "Deborah":

"It is fortunate that the Crucified appeared on this Earth, because during the whole year we Jews owe the biggest profits to the Son of Mary."

... It certainly is far better to have the birthday of Christmas than the smallpox, and if the Holy Virgin only had consented to have a boy born to her also in summer, we could have had a Christmas time twice . . ."
